

REG Windpower REG003 - Hallburn Wind Farm - Survey of residents of wards in Carlisle City Council area - telephone survey of general public, conducted by Marketing Means between 22nd May and 2nd June 2014

The results below are weighted to reflect the age and gender profile of the Carlisle City Council population aged 18+ (using ward-level data from the 2011 Census)

Each group of figures shows first the unweighted total (how many gave the response), the weighted total (same, but corrected by weighting), and the % within the relevant column.

N.B. Not all columns will add to exactly 100%, due to rounding of % figures to the nearest whole percentage value.

Q1a. I'm going to read out some statements about climate change and renewable energy. Please could you tell me whether you agree or disagree with each one.

I consider the threat of climate change to be a serious concern.

REG Windpower REG003 - Hallburn Wind Farm - Survey of residents of wards in Carlisle City Council area - telephone survey of general public, conducted by Marketing Means between 22nd May and 2nd June 2014

Q1b. I'm going to read out some statements about climate change and renewable energy. Please could you tell me whether you agree or disagree with each one.

It is important that this country makes use of renewable energy to cut greenhouse gas emissions.
